

The Lubrication Solution for Jaw Crushers

FEATURES & BENEFITS

- Improve performance & up-time by gaining more operating time per day & spending less on maintenance.
- Help to avoid unforeseen equipment shutdowns, costly repairs, & unscheduled downtime.
- Protect critical equipment with advanced monitoring systems that alert of problems before failure occurs.
- Systems built to endure harsh environments.

Adding a Bijur Delimon lubrication system increases equipment life by decreasing wear on vital components. Automatic lubrication systems safely and continuously supply lubricant while your jaw crusher is running.

PROVEN QUALITY, RELIABILITY & ACCURACY.

Keeping your costly jaw crusher protected from the extreme environments it operates in is essential for efficient performance. An automatic lubrication system is a fundamental part of extending critical component life leading to reduced costs of component maintenance. With unmatched lubricant delivery accuracy, our systems increase your output and production uptime. Optional custom enclosures are available for “plug-and-play” installation, along with stand-alone design that can be retrofitted with ease.
