All LD Tank package meters come standard with trigger guard, hose boot and automatic nozzle!

### LD Series Pumps

These affordable and full featured pumps are designed for lower volume applications and are available in 3:1 and 5:1 for oil and 50:1 for grease. Each pump is fine-tuned for a compact, flexible and still incredibly durable solution.

### LD and SD Reels

Two models to choose from: LD Series' one-piece design protects internal components from the elements and extends hose life. SD Series Hose Reels have a long-lasting spring that provides constant torque—a more robust pedestal can withstand frequent use without twisting or cracking.

### LD Series Meters

LD Series meters have flow rates up to 5 gpm (19 lpm) and working pressures up to 1000 psi (69 bar) to give you the performance and power you need everyday. Choose from two models—the LD manual or LD preset, each equipped to dispense in quarts, pints, liters or gallons.

\* SD Series Reels are backed by Graco's 7 year warranty. LD Meter Electronics are covered with a 2 year warranty.
